

Hi! & Breasy

Breasy is an *app* for mobile devices that has been fully integrated with **Hi!**, the leading-edge system that revolutionizes cashless payments.

-  Backup and data retrieval function (integrated IrDA and Bluetooth®), your transactions and *day by day* activities are even more secure and faster.
-  Integrating **Breasy** with **Hi!** readers enhances the customer's *user experience*, ensuring simplicity and effort-free speed during use plus a smart queue management.
-  Customized breaks, storage of favourite purchases in its memory, speedy and secure payment, nutritional facts, and much more.

Many advantages for higher quality breaks on a day to day basis and guaranteed customer loyalty. Discover **Breasy & Hi!** and prepare your company for the future of *vending*.

Breasy

Breasy is a smart app designed to improve and personalize the purchasing experience from vending machines. Enjoy speedy, secure transactions direct from your smartphone: buy a cup of coffee even when you've just run out of small change and card payment is impossible.

Breasy, when vending is just an app away

You can receive payments directly on your bank account, rapidly and with full security.

You can have access to the extremely advantageous conditions for interbank services stipulated by Evoca Group.

Customize Breasy with your own colours and logo.

Vending machines can function offline: the transactions flow from the data connection on the customer's smartphone.

Special promotions can be tailored to your customer's specific needs.

Thanks to Breasy, you can configure your very own loyalty program.

Offer your customers the highest protection for each purchase with Masterpass™: they will simply store their cards in one secure location, protected by the extra layers of security you expect from Mastercard®.
